## 100 % Vegetarian Vitamins (NO Animal Products) calcium +vit D, kids chewable vitamins, vit D drops, Vit D, co enz Q10

### Why Stevia

Life just got a whole lot sweeter! The search for a great tasting, all-natural, zero calorie sweetener is over! Welcome to the world of Stevia and experience the sweetness of nature! Greeniche uses the highest grade extracts from the stevia plant. While most stevia products focus primarily on one important component of the extract, Stevioside, we utilize two components, Stevioside and Rebaudioside-A. What makes Greeniche Stevia the best Stevia-based product in the world is the high concentration (97%) of Rebaudioside-A.

Stevia is a versatile sweetener, which can be used in hot and cold beverages and dissolves completely and quickly, can be sprinkled on cereals, fruits, and salads, and can even be used in baking/cooking as it is stable at high temperature.

When you consider the countless health hazards posed by artificial sweeteners, Stevia clearly is the perfect alternative revealing the sweet secret of nature.

Stevia comes in packs containing 100 and 25 sachets, with each sachet equal in sweetness to 2 teaspoon sugar. Stevia also offers rapid-dissolution tablets in a plastic dispenser of 100's with each tablet equal to 1 teaspoon sugar in sweetness.

When you buy Greeniche Stevia, you can sure that you have chosen the best sweetener on the planet.
